Read more [here](#).

In the past week since we announced our move, many of you have asked me, "why Foley?" While there are many "big law" firms in the market, when we met the team at Foley, we felt an authentic match with our core [values](#). At Foley, we believe that our people are our most valuable asset. The quality, creativity and dedication of our team will define our success. We value the difference and uniqueness of each individual. We bring these same core values to our matching with clients.

Our clients are our priority. We do our best, not only to provide quality work, value and superior service to our clients, but also bring an individual, custom and tailored approach to each client. We call them practical, commercial and strategic solutions.

We embrace diversity, and commit to the inclusion of our diverse attorneys and staff. We believe that differences among us will lead to more out of the box thinking, creative lawyering and ultimately and inevitably to greater outcomes for our clients.

Finally, we have found a home where we will continue to have the opportunity to be good citizens in serving our communities and profession through civic,

pro bono, professional and charitable service.

It is an exciting time as we bring the expanded service offerings of Foley to our clients, and look forward to seeing all of you as soon as circumstances allow.

My best,
Louis Lehot
